Empowering of the Young Generation

workshop especially for youngsters, young adults, their parents and people who like to grow and support development processes

11th to 13th Sept 2020 in Murrhardt/Germany

Hiah Park

was born and grown up in Korea and lives now in Vienna and Colorado/USA. She has two daughters and grandchildren who live with their families in Indonesia and the USA. She herself is at a respectable age and a well-known and highly esteemed master of shamanism. She is also a highly professional dancer, teacher and choreographer of the complex repertoire of traditional Korean dance, for which she was the first woman ever to be educated at the Korean National Institute of Traditional Korean Dance. She was also choreographer, dancer and co-creator of the era of avant-garde dance (improvisation, dissonance in music and movement).

For about 39 years she has been working for and with people worldwide.

Movement, dance, music, sound, rhythm, these are her tools she is going to work with you from a higher perspective.

Her presence creates a space that gives you the chance to find out who you really are and who not. She is the personification of a completely transformed human being who is moving in the highest wisdom and pure Love. She is the initiated shaman who has gone through her own death, knowing what life is and human existence means.

Workshop

With this workshop, Hiah Park is especially and specifically addressing the younger generation, teenagers and young adults. But also to those older generations whose wish it is, to support young people on their way with their experience and who are willing and are open to work on themselves and share this with young people.

It is of great concern to her to support young people in their development and to give them strength. Because the young generation of today is the arrowhead of the society of tomorrow. It would also be enriching for the work if parents together with their children were part of the workshop.

"You can decide to stand stronger, more balanced and complete in life."

"You can decide to dissolve your fear of mistakes, of the future, your anger, desperation, frustration and bad experiences at school, at work or in your family."

"You can choose to work through your grief, create emotional clarity and find peace within yourself."

Find out how you are really in the moment, how you really feel. Move in the space between heart and mind protected by a master and let you feel the difference by yourself. Let yourself be guided, feel and experience strength, security, satisfaction, happiness and fun.

This is your gift from you to yourself!
