Hiah Park

was born and raised in Korea and now lives in Vienna and Colorado, USA. She has two daughters and grandchildren who live with their families in Indonesia and the USA. She herself is at a respectable age of over 80 years and is a well known and highly respected master of shamanism. She is also a highly professional dancer, teacher and choreographer of the complex repertoire of Korean traditional dance, for which she was the first woman ever to be trained at the Korean National Institute of Traditional Classical Music & Dance. She was a choreographer, dancer and co-creator of the era of avant-garde dance (improvisation, dissonance in music and movement). She has been working with people worldwide for more than 40 years. Movement, dance, music, sound, rhythm, these are all her tools with which she works with you from a higher perspective. Her presence creates a space that gives you the chance to find out who you really are.

*"She is the personification
of a completely transformed human being who
moves in the highest wisdom and pure love.*

*She is the initiated shaman who has gone through her own death
and knows what life and human
existence means"*

*„CREATE
A SPACE OF
TRUST
LOVE AND ACCEPTANCE;
A NEW PLACE OF JEWELS“*

Workshop

The workshop, which is now taking place for the fifth time, gives us the opportunity to continue working on the processes that have been triggered or to recognise, look at and work on inner conflicts.

To do this, we create a space in which there is trust and respect for the young people, no rejection, no fighting, no restriction. They experience that they are okay the way they are; wanted with their ideas and changed perspectives. We look together at hidden pain with the aim of making their own potential visible and using it with confidence. Through their being, young people create a light, innocent, joyful energy, an inspiration for all of us to change useless and hindering patterns.

A New perception of yourself !
